

# HONEST WATER CO

## A smarter way to R.O.

Say goodbye to hidden contaminants in your water and hello to safe, great-tasting hydration for the whole family with HW800 AlkaPro. This smart, tankless Reverse Osmosis (R.O.) system from Honest Water Co.—trusted for years in Dallas, Texas—makes it easy to enjoy clean, refreshing water straight from your tap. Built for everyday convenience and using the latest technology, HW800 AlkaPro keeps your water healthy and delicious while being kind to the environment.

# HW800 ALKAPRO

BY HONEST WATER CO.

## HOW DOES HW800 ALKAPRO COMPARE?

BRAND	HONEST WATER	CULLIGAN	PENTAIR
R.O. Model	HW800 AlkaPro	Aquasential Tankless RO.	Omnifilter Quickconnect T600RO
Filtration Technology	Spiral Flow R.O. Filter	Advanced Reverse Osmosis	Advanced R.O. Filtration Technology
Filtration Stages	7-Stage High-Precision Filtration	5-Stage High-Precision Filtration	3-Stage Filtration
Filtering Precision	0.0001 pm (micron)	0.0001 pm (micron)	0.0001 pm (micron)
Water Waste Ratio	2:1	1:5:1	2:1
Water Flow Rate	0.53 GPM	0.42 GPM	Unspecified
System Capacity	800 GPD	757 GPD	396 GPD
Tankless Design	Yes	Yes	Yes
Installation	DIY-friendly Installation	Professional Installation required	Professional installation may be required
Space-Saving Design	Saves 70% under-sink space	Compact design	Compact design
DIY Filter Change	Yes	No	No

## HW800 ALKAPRO

BY HONEST WATER CO.

Sustainable, Clean Water Solutions—Right Where You Live

### HW800 AlkaPro TECHNOLOGY: EXPERT FILTRATION FOR SUPERIOR TASTE

Discover what truly clean water tastes like with Honest Water's advanced 7-Stage High-Precision Filtration. Engineered with an ultra-fine 0.0001µm (micron) filter, our system removes heavy metals, dissolved solids, chlorine, and other everyday contaminants. The natural Coconut Carbon Block—crafted from real coconut shells—brings out a smoother, fresher flavor in every sip.

### ECO-CONSCIOUS INNOVATION: SAVE WATER, REDUCE WASTE

Be part of the eco-friendly revolution with the HW800 AlkaPro. Its efficient 2:1 Low Drain Ratio uses far less water than standard R.O. systems—producing 2 cups of pure water for every 1 cup drained. That's up to six times more water saved, all while delivering clean, refreshing hydration you can feel good about.

### EFFICIENCY REDEFINED: INSTANT, TANKLESS DESIGN

Honest Water delivers instant, tankless filtration for fresh, clean water on demand. Our compact design saves up to 70% more space than bulky tank systems, while high flow rates ensure you get pure water quickly and effortlessly.

### POSITIVE ENVIRONMENTAL IMPACT

When you choose Honest Water, you're choosing a cleaner planet. Our reverse osmosis systems replace single-use bottled water, helping cut down plastic waste and shrink your carbon footprint—one refreshing sip at a time.

### INTEGRATED ALKALINE TECHNOLOGY

This system features built-in alkaline remineralizing technology, enriching your water with beneficial minerals while keeping the design simple and efficient. With fewer connections required, the risk of leaks is greatly reduced—ensuring safer, worry-free performance.

### AUTO R.O. FLUSH KEEPS YOUR FILTER FRESH

The HW800 Auto Flush system keeps your R.O. membrane clean by automatically washing away trapped impurities—preventing clogs and extending the life of your system. You don't have to do a thing! If you notice a brief flushing sound and see the filter lights blink now and then, that's your system hard at work.

### EASY INSTALLATION & SPACE- SAVING DESIGN

Feel the Honest Water difference with our powerful 7-Stage High-Precision Filtration. Using an ultra-fine 0.0001µm (micron) filter, our system works to remove heavy metals, dissolved solids, chlorine, and other common impurities from your water. The natural Coconut Carbon Block, made from real coconut shells, enhances flavor for a cleaner, fresher taste in every glass.

### SAFETY & QUALITY ASSURANCE

With a leak-free, lead-free water path built to NSF372 standards, HW800 is engineered for your peace of mind. Every drop is filtered through a system designed for safety, reliability, and the well-being of you and your family.

Optional RO faucets in a variety of finishes and styles.
